06:00	09:00	12:00	15:00	18:00	21:00
Partly cloudy (night)	Heavy rain showers	Heavy rain showers	Heavy Rain	Heavy rain showers (night)	Heavy rain showers (night)
Precipitation probability					
10%	40%	30%	90%	30%	60%

Forecast for Wednesday 02 Nov 2022

Weather: A dry and bright start to the day but a few passing heavy showers will develop during the morning. A band of heavy, and possibly thundery, rain will move east across all parts during the afternoon followed by blustery showers, some of these heavy and thundery. Very strong winds at height, reaching storm force, especially during the afternoon.

Chance of cloud-free hill tops above 800m: 80% in the morning becoming 40% in the afternoon.

Low cloud and visibility: Generally good during the morning with just patchy summit cloud and brief reductions in showers. Becoming poor for a while in the afternoon in heavy rain with cloud becoming extensive on the tops and lowering to 500m at times.

Freezing Level*	1100m	1500m	1600m	1800m	1500m	1400m	1200m

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Southerly winds strengthening through the day with widespread gales, even to low levels. Gusts of 75 to 85mph on higher slopes and ridges will make for dangerous conditions with progress almost impossible at times.

Forecast for Thursday 03 Nov 2022

Weather: A mixture of bright or clear spells and a few showers, falling as sleet above 900m. The odd one could be heavy with a chance of thunder. Feeling colder than of late.

Maximum wind: Southwesterly 25mph gusts 35mph at first, decreasing to 10-15mph in afternoon.

Chance of cloud-free hill tops above 800m: 60%.

Low cloud and visibility: Patchy cloud above 600m, perhaps down to 400m in heavier showers. Mainly good visibility between showers,

Temperature: **Valleys:** Plus 8 Celsius rising to 10 Celsius.
At 800m: Plus 4 Celsius.
Freezing level: Above summits.
